

# COVID-19 EXPOSURES FOR CHILDREN at Coastal Community Preschool

Exposure for a single person is when they have spent at least 15 minutes in a 24-hour period indoors within 6 feet of a person with COVID-19. Exposure for a group is when they have spent at least 15 minutes in a 24-hour period in the same indoor area with a person with COVID-19. Exposure window: Someone who gets sick with OR tests positive for COVID-19 can start infecting others 2 days BEFORE feeling sick or testing positive; this is considered exposure time. The CCP office must be notified of all known exposures.
